SUMMARY

Motivated Software Engineering student with hands-on experienced in Full-Stack Mern Development Skilled in building scalable web applications , Restful APIs, and Secure authentication systems, strong foundation in Data Structures and Software design principles, passionate about Artificial Intelligence and Cloud Computing, with a continuous learning mindset and problem solving approach.

EDUCATION

University of Central Punjab, Lahore

Oct 2022 – May 2027

- Bachelor of Science in Software Engineering.

Punjab College, Lahore

Oct 2019 – May 2021

- ICS. Stats

PROJECTS

AgriTrade Mern Stack Project

- Developed a full-stack web application for agricultural trading using MongoDB, Express.js, React, and Node.js.
- Implemented user authentication and secure login system using JWT.
- Designed RESTful APIs for product listings, transactions, and user management.
- Improved user experience with responsive UI and efficient backend performance.

ATS-Friendly Resume Builder

Developed a dynamic resume builder using React.js with 8+ pre-designed professional templates.

- Implemented real-time resume generation where user input updates instantly in the selected template.
- Built interactive form-based input system for capturing user data (education, skills, experience, etc.).
- Enabled seamless switching between multiple templates without losing user-entered data.
- Designed reusable components and optimized state management for smooth performance.
- Focused on ATS-friendly formatting to ensure resumes pass automated screening systems.

SKILLS AND CERTIFICATIONS

Technical Skills:

Languages: JavaScript, Python, C++

Web Development: HTML, CSS, React.js, React-Native, Node.js, Express.js

Database: MongoDB, MySQL

Tools: Git, GitHub, Docker, Postman

Concepts: Data Structures, OOP, REST APIs, C++

Certifications: MERN Stack Development (Online Course: Coursera (**Meta**))
